

## EAA Chapter 1298 Hangar Clean Up Project

April 2022

By Paul Bryant

On April 30th members of Chapter 1298 held a bi-annual cleanup of our hangar. The Board would like to thank all of the members who volunteered their time and talents to make this huge task very manageable. The cleanup team was able to clear out the entire hangar by moving several airplane projects to the ramp. Then the team was able to dispose of unnecessary, old or unusable material,

vacuum and sweep the entire hangar floor. Following this they pressure washed and dried the entire floor. This huge undertaking was scripted very well with all the participants jumping in to help wherever needed. Moving large aircraft projects, heavy and bulky boxes, machine equipment, and shelving is no easy task, but these great

folks “got er done” in a remarkable amount of time. Once again, the hangar is looking great and we can all take pride in the fact that this chapter is an active, enthusiastic, friendly group.

With the large turnout of volunteers, the entire project was completed within 2 hours. After everything was put back into place, the members enjoyed a great lunch of beer brats, hamburgers, potato salad, coleslaw and all the fixins....and of course the camaraderie and hangar flying

stories.... A really a great way to spend a Saturday morning in April here in Brooksville, Florida!

Again, thanks to the following volunteers who came out to help with the chapter’s hangar clean up and our great cooks too.

Dolly Bambas  
Karl Bambas  
Donna Bright (Deputy Chief Chef)  
Frank Brunot  
Paul Bryant  
Mark Clark  
Chuck Cloud  
Brandon Lynch  
Michelle Lynch  
Shelby Lynch  
Jack Maher  
Michael Patton  
Joe Rhodes  
Marcia Rhodes  
Bill Smith (Chief Chef)  
Elliot Smith  
Dennis Spitaleri  
Merle Wagner  
Rob Yanichko

More pics of the cleanup crew!

Thanks to Rob Yanichko for the Great pics
